

Health Information Technology (HIT) Workgroup Report
Submitted to the Idaho Healthcare Coalition
May 2015

Activity Dates: **April 8 – May 11, 2015**

Activities Related to SHIP:

- RFI results were tabulated and analyzed (by a sub-committee) for review by the HIT workgroup to assist in the RFP development process.
- RFP timeline and segregation of duties document was produced and approved by the HIT workgroup.

Committee Meeting Update:

- No changes in membership to report.
- Casey Moyer, SHIP Operation Project Manager, joined team supporting the HIT workgroup.
- The next HIT workgroup meeting will be held on Thursday, May 21st from 3:00-5:00PM.

Next Steps:

- HIT Workgroup is interested in talking with Oklahoma and other states that have implemented data exchanges with analytics elements. SHIP staff will assist in making a TA request.
- Complete the RFI review and make final recommendations for the RFP content.

Other Information:

- Sole Source vendor approval was grant to SHIP allowing for a contract with Idaho Health Data Exchange (IHDE) to be initiated without using the RFP and bidding process.
