4:00 p.m.	Adjourn

Mission and Vision

The goal of the SHIP is to redesign Idaho's healthcare system, evolving from a fee-for-service, volume based system to a value based system of care that rewards improved health outcomes.

Goal 1: Transform primary care practices across the state into patient-centered medical homes (PCMHs).

Goal 2: Improve care coordination through the use of electronic health records (EHRs) and health data connections among PCMHs and across the medical neighborhood.

Goal 3: Establish seven Regional Collaboratives to support the integration of each PCMH with the broader medical neighborhood.

Goal 4: Improve rural patient access to PCMHs by developing virtual PCMHs.

Goal 5: Build a statewide data analytics system that tracks progress on selected quality measures at the individual patient level, regional level and statewide.

Goal 6: Align payment mechanisms across payers to transform payment methodology from volume to value.

Goal 7: Reduce overall healthcare costs
